

ROHO® Retroback® Back Support System

- *Easy clip design*
- *No tools or hardware needed*
- *Improves comfort*
- *Supports posture*
- *Affordable*

Ease of use and instant comfort –that’s the promise of the Retroback by ROHO. This unique back support system simply clips to the existing sling upholstery to improve comfort and support posture. Remove the Retroback by simply lifting it off the upholstery. No tools or hardware required!

The simple yet functional design provides rigidity to compensate for sagging sling wheelchair back upholstery, while increasing sitting tolerance and reducing lower back fatigue.

The quality and innovation you expect from ROHO – at an affordable price.

UNIQUE CLIP ON / CLIP OFF DESIGN

Most back supports require that you remove the existing upholstery and replace it with a solid back support through the use of tools and mounting hardware. Not the case with Retroback. Simply clip Retroback onto the existing sling upholstery and lift it off every time the wheelchair needs to be folded or stored.

DURABLE YET LIGHTWEIGHT

This rugged back support system weighs only 3 pounds, making it easy to attach and remove from a wheelchair. The removable, fluid-resistant cover is made of a flexible, durable and washable fabric.

IMPROVES COMFORT AND SUPPORTS POSTURE

Retroback also provides support and comfort with only minor compromise to seat depth since the back support is positioned between the wheelchair back posts.

ROHO® Retroback® Back Support System

APPLICATIONS

RETROBACK BACK SUPPORT SYSTEM IS APPROPRIATE FOR:

- individuals who require basic posture support and comfort
- individuals whose mobility is minimally or moderately impaired
- facilities that use products with multiple patients
