The AGILITY Back System:

ROHO’s latest innovation designed to meet your clients’ seating and positioning needs.

**What’s AGILITY BACK SYSTEM?**

**Strong | Adjustable | Comfortable**

No two people are the same. And our 40 years of experience tells us that “one size fits all” is not the case when you’re addressing your clients’ individual needs. That’s why ROHO AGILITY Back Systems are designed to accommodate various body sizes and shapes and can be easily adjusted – even when your clients are seated.

ROHO AGILITY backs are designed to adapt to virtually every wheelchair, and once properly installed, they’ll stay secure and in position. And, because they’re composed of aircraft-grade aluminum shells, durable AIR FLOATATION inserts and high-density Zytel® composite hardware, they’ll keep even your most active clients safe and secure.

Learn more about the AGILITY difference and see these systems in action! Visit [www.agilityoverview.com](http://www.agilityoverview.com).
AGILITY MEANS:

For Clinicians,  
- Backs that accommodate a wide range of body types and postural needs  
- Backs that stay in the intended position  
- Numerous fitment options for each back  
- Confidence that your clients will be secure  
- A full line of laterals

For Providers,  
- Backs that will adapt to almost any wheelchair  
- Easy height, angle and depth adjustments  
- Adjustments with a single tool—even with clients seated  
- Durable design that will reduce expensive maintenance calls  
- Predrilled holes in the back shell for attaching a headrest

For Clients,  
- AIR FLOATATION technology for unmatched comfort  
- Increased sitting time and tolerance  
- Superior lateral stability  
- Improved manual wheelchair propulsion  
- Peace of mind and trouble-free performance

Our Zytel® hardware provides an excellent strength-to-weight ratio. Zytel, a product of DuPont, is valued for its high mechanical strength and abrasion, chemical and flame-resistant properties.

Tested for Durability
AGILITY’s Quick Release hardware exhibited no damage when subjected to 300 lbs of force exerted for 100,000 cycles directly into the most vulnerable part of the back: the top. The market-leading competitor’s back lasted only one cycle. See for yourself at www.agilitystrength.com.
Our exclusive hardware fastens quickly and allows for quick adjustments:
up to four inches in height and one inch in depth.

Easily adjust AGILITY’s angle and depth – even with your clients seated in their wheelchairs. You’ll only need one tool to ensure ideal postural support and positioning.

AGILITY’s feature a single-point angle adjustment of 15° of anterior and posterior tilt.

QUICK RELEASE OR FIXED HARDWARE?
ROHO AGILITY Backs are available with two adjustable hardware attachment options. Both options can be adjusted the same way once installed and pass our stringent strength tests.

Quick Release hardware makes removal for transport or storage a snap, even by those with limited hand dexterity. Simply unlock it and lift it by the handle.

Fixed hardware is ideal for clients who rarely need to remove their back. (available in heights 16 inches and lower)

ROHO AGILITY Backs are designed to be light and to conform to your clients’ bodies. AGILITY Backs integrate ROHO’s AIR FLOATATION™ technology, which is fully adjustable to tailor air volume to comfort level.

Flippable to accommodate different body types or changes in body shape

How easy is AGILITY to install and adjust? See for yourself at www.agilityinstall.com.
Recommended for clients who:

- Require basic postural support
- Are independent wheelchair users
- Have good trunk control

Models:

- Foam Only
- Foam + Lumbar Support
- Foam with Air Insert
- Foam with Air Insert + Lumbar Support

INCLUDES: Back support, mounting hardware, foam pad, lumbar foam support (select models), cover, installation/adjustment combo tool, and an instruction manual. An adjustable air insert, foam insert, repair kit and hand pump are available on models that include an AIR FLOATATION insert.

Dimensions:

Width: 13" to 20"
Depth: Foam: 2.5", Foam/Air: 3"
Height: 10" to 18"

Code Verified:

Foam Only - E2611
Foam with Lumbar - E2613
Air Only - E2620
Air with Lumbar - E2615

Recommended for clients who:

- Require postural support
- Are somewhat dependent with transfers
- Need minimal trunk support

Models:

- Foam with Air Insert
- Foam with Air Insert + Lumbar Support

INCLUDES: Back support, mounting hardware, lumbar foam support (select models), adjustable air insert, foam insert, repair kit, hand pump, cover, installation/adjustment combo tool, and an instruction manual.

Dimensions:

Width: 13" to 20"
Depth: 4"
Height: 10" to 20"

Code Verified:

Air Only - E2620
Air with Lumbar - E2615
Agility®
Max Contour
Back System

Recommended for clients who:
• Require a significant amount of postural support
• Are more dependent with transfers
• Need the maximum amount of trunk support

Models:
• Foam with Air Insert
• Foam with Air Insert + Lumbar Support

*All models include adjustable lateral air pads

Includes: Back support, mounting hardware, lumbar foam support (select models), adjustable air inserts, foam inserts, repair kit, hand pump, cover, installation/adjustment combo tool, and an instruction manual.

Dimensions:
Width: 13” to 20”
Depth: 7”
Height: 16” to 20”

Code Verified:
Air Only - E2620
Air with Lumbar - E2615
ROHO’s exclusive AGILITY CUSTOM back system allows you to design an adjustable DRY FLOATATION® insert that’s individually tailored to your clients’ unique body shapes and postural and support needs – fitted to whichever AGILITY back shell size you choose.

And all CUSTOM backs share the same great AGILITY features:

- Designed to adapt to your clients’ wheelchairs and are fully adjustable
- Once properly fitted, they’ll stay secure and in position
- Composed of the same aircraft-grade aluminum shells and high-density Zytel® composite hardware as a standard AGILITY

AGILITY CUSTOM Backs are Code Verified: HCPCS Code E2617*
(CUSTOM FABRICATED WHEELCHAIR BACK)

AGILITY CUSTOM must be multi-compartment and customized to the individual client to qualify for reimbursement. Complete E2617 reimbursement guidelines are available at www.dmepdac.com.

Download Order Forms at roho.com!

Use our AGILITY CUSTOM order form to specify almost any combination of neoprene air cells – in consistent or variable heights – and even designate multiple air valve placements for air flow control. We’ll then create a breathable/washable cover to fit your custom back.

Talk to your ROHO Customer Care representative or visit roho.com for more information.

* Decisions about how to code a product in the U.S. are the responsibility of the provider/supplier. Since U.S. Medicare coding is subject to change, the provider should always confirm the HCPCS code and coverage criteria as part of the client assessment process. For coverage criteria in other countries, consult your local ROHO distributor.
Specifying the Perfect ROHO® AGILITY® Back System in Four Simple Steps:

1. Choose size and configuration.
2. Choose your hardware.
3. Create your ROHO AGILITY part number.
4. Choose your accessories.

Choose size and configuration, find your model number on our matrix:

STEP 2  Choose Quick Release or Fixed hardware:
Hardware must be selected to complete your AGILITY back part number. Please select one box from the hardware options below.

<table>
<thead>
<tr>
<th>Hardware Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quick Release</td>
<td>Quick Release hardware makes removal for transport or storage a snap, even by those with limited hand dexterity. Simply unlock it and lift it by the handle.</td>
</tr>
<tr>
<td>Fixed</td>
<td>Fixed hardware is ideal for clients who rarely need to remove their replacement backs (available in heights 16 inches and lower).</td>
</tr>
</tbody>
</table>

AGILITY Slide Ruler
Make precise adjustments easily with this helpful tool.

STEP 3  Create your ROHO AGILITY part number:

Back Shell Part number  Mounting Hardware Number  Complete ROHO AGILITY Back Number

AG2-1810AL  2  =  AG2-1810AL-2

STEP 4  Choose your accessories:

AGILITY Laterals
Designed to provide your clients with additional trunk support and positioning, laterals are available in swing-away and fixed brackets, with flush or offset mounts.

- Pad Sizes Available:
  - Medium: 4" x 4"
  - Large: 4" x 5"
  - X-Large: 5" x 5"

- AGILITY Laterals have a weight limit of 300 lbs.

- Limited Warranties
  - Brackets: 36 months
  - Covered Foam Pad: 6 months

NOTE: These AGILITY Laterals are designed for use only with AGILITY Minimum Contour and AGILITY Mid Contour Back Systems. We recommend that a clinician, such as a doctor or therapist experienced in seating and positioning, be consulted to determine if AGILITY Laterals are appropriate for the client’s seating needs.
