CDG POLY
This fun, edgy pattern was created exclusively for you by Nashville native and long time Permobil user Charlie W. Daniels. This inspired design will definitely help set you apart as you pay homage to Charlie’s Memory. (Learn more about Charlie’s story on the next page.)
At around 7 months old Charlie was diagnosed with Spinal Muscular Atrophy as well as a rare nerve disease. Never one to let something stand in his way Charlie’s personality and talents took him places that some only dream. Using only his thumb and index finger Charlie was able to create a plethora of amazing designs for Nashville record labels and artists such as Brantley Gilbert and T-PAIN. Sadly Charlie lost his battle with SMA in October 2016, but Permobil is proud to honor his legacy with the offering of his exclusive CDG Poly design.
