Sensor Ready Cushion Features:

Sensor Ready™ The ROHO Sensor Ready HIGH PROFILE™ and MID PROFILE™ Cushions come standard with a quick disconnect port that allows these cushions to be connected to Smart Check, a sensing device used to set up and monitor an individual’s inflation range.

Shape Fitting® The unique cellular designs of the HIGH PROFILE™ and MID PROFILE™ cushions allow them to constantly conform and track movements of the body. The cellular adjustment and conformity of the cells in accommodation and reads the unique skin/soft tissue integrity needs of each individual throughout the day. As the individual’s body changes over time, so will the cushion.

Skin Protection Over forty years of research, experience and refinement of ROHO® DRY FLOATATION® Technology provides an individual with unparalleled skin/soft tissue protection.
