Need to Find the Right ROHO® Product for The Individual’s Diagnosis?

Let’s get started!

Does the individual have a wheelchair and meet Medicare coverage criteria for it?

NO

Qualifying HCPCS Conditions

A general use seat cushion (E2601) and a general use wheelchair back cushion (E2611-E2612) is covered for a beneficiary who has a manual wheelchair or a power wheelchair with a sling/solid seat/back which meets Medicare coverage criteria. If the beneficiary does not have a covered wheelchair, then the cushion will be denied as not reasonable and necessary. If the beneficiary has a POV or a power wheelchair with a captain’s chair seat, the cushion will be denied as not reasonable and necessary.

For beneficiaries who meet coverage criteria for a power wheelchair and who do not have special skin protection or positioning needs, a power wheelchair with Captain’s Chair provides appropriate support. Therefore, if a general use cushion is provided with a power wheelchair with a sling/solid seat/back instead of Captain’s Chair, the wheelchair and the cushion(s) will be covered if EITHER criterion 1 or criterion 2 is met:

1. The cushion is provided with a covered power wheelchair base that is not available in a Captain’s Chair model – i.e., codes K0839, K0840, K0843, K0860 – K0864, K0870, K0871, K0879, K0880, K0886, K0890, K0891; or

2. A skin protection and/or positioning seat or back cushion that meets coverage criteria is provided.

If one of these criteria is not met, both the power wheelchair with a sling/solid seat and the general use cushion will be denied as not reasonable and necessary.

If the beneficiary has a POV or a power wheelchair with a captain’s chair seat, a separate seat and/or back cushion will be denied as not reasonable and necessary.
Adjustable Skin Protection

The presence of an ICD-10 code listed in this section is not sufficient by itself to assure coverage. Refer to the section on Coverage Indications, Limitation and/or Medical Necessity for other coverage criteria and payment information.

**E2623**  
Skin protection wheelchair seat cushion, adjustable, width *22 inches or greater*, any depth

Qualifying ICD-10 Diagnosis Conditions and Codes

A skin protection seat cushion (E2622, E2623) is covered for a beneficiary who meets the following criteria:

1. The beneficiary has a manual wheelchair or a power wheelchair with a sling/solid seat/back and the beneficiary meets Medicare coverage criteria for it; **AND**

2. The beneficiary has **EITHER** of the following:
   a. Current pressure ulcer or past history of a pressure ulcer (see diagnosis codes that support medical necessity section below) on the area of contact with the seating surface; **OR**
   b. Absent or impaired sensation in the area of contact with the seating surface or inability to carry out a functional weight shift due to one of the following diagnoses: spinal cord injury resulting in quadriplegia or paraplegia, other spinal cord disease, multiple sclerosis, other demyelinating disease, cerebral palsy, anterior horn cell diseases including amyotrophic lateral sclerosis, post polio paralysis, traumatic brain injury resulting in quadriplegia, spina bifida, childhood cerebral degeneration, Alzheimer’s disease, Parkinson’s disease, muscular dystrophy, hemiplegia, Huntington’s chorea, idiopathic torsion dystonia, athetoid cerebral palsy, arthrogryposis, osteogenesis imperfecta, spinocerebellar disease or transverse myelitis (see diagnosis codes that support medical necessity section on the next page).

Qualifying ICD-10 Diagnosis Codes

A combination skin protection and positioning seat cushion (E2607, E2624, E2625) is covered for a beneficiary who meets the criteria for BOTH a skin protection seat cushion AND a positioning seat cushion.

If a skin protection seat cushion, positioning seat cushion, or combination skin protection and positioning seat cushion is provided and if the stated coverage criteria are not met, it will be denied as not reasonable and necessary.

If a positioning back cushion is provided for a beneficiary who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

For HCPCS codes E2607, E2624 & E2625, a diagnosis must exist represented by EITHER (#1 on pages 22-25, OR #2 on pages 25-26 AND one of the following on pages 26-30):

Qualifying ROHO® Products

Qualifying ICD-10 Diagnosis Codes

A custom fabricated seat cushion (E2609) is covered if criteria (1) and (3) below are met. A custom fabricated back cushion (E2617) is covered if criteria (2) and (3) below are met:

1. Beneficiary meets all of the criteria for a prefabricated skin protection seat cushion or positioning seat cushion (pages 21-28);

2. Beneficiary meets all of the criteria for a prefabricated positioning back cushion (pages 13-19);

3. There is a comprehensive written evaluation by a licensed/certified medical professional, such as a physical therapist (PT) or occupational therapist (OT), which clearly explains why a prefabricated seating system is not sufficient to meet the beneficiary's seating and positioning needs. The PT or OT may have no financial relationship with the supplier.

If a custom fabricated cushion is provided for a beneficiary who does not meet the stated coverage criteria, it will be denied as not reasonable and necessary.

A prefabricated seat cushion, a prefabricated positioning back cushion, or a brand name custom fabricated seat or back cushion which has not received a written coding verification from the Pricing, Data Analysis, and Coding (PDAC) contractor or which does not meet the criteria stated in the Coding Guidelines section will be denied as not reasonable and necessary.
